You are going to love this newly remodeled brick front home in a quiet cul-de-sac backing to woods. You enter into an elegant two story foyer with turned staircase and hardwood floors. The formal rooms are to your right and offer ample wall space for furniture placement and a generous dining area for family gatherings. The kitchen is open to the family room across the back of the house and features lots of counter top space for food preparation and an abundant number of tall cabinets for storage. The master bedroom is very elegant with a three sided fireplace open to a generous sitting area. This is a great hide-away for mom and dad or fitness or hobby area. It is attached to a newly remodeled, sexy master bath with huge shower and soaking tub. The two additional bedrooms on this level share another remodeled hall bath. High ceiling and lots of windows make this home light bright open and airy.
